Reviews

The book is great and fantastic. It is written in straightforward words and phrases rather than difficult to understand. You won't really feel monotony at any time of your respective time (that's what catalogues are for regarding should you question me).

PRACTICAL JUNG: NUTS AND BOLTS OF JUNGIAN PSYCHOTHERAPY (PAPERBACK)

Chiron Publications, 2015. Paperback. Condition: New. 2nd ed.. Language: English . Brand New Book ***** Print on Demand *****.Here is the thought of Carl Gustav Jung, the great Swiss psychologist, applied to the real world of the therapist's office. Dr. Wilmer explores the Jungian approach in a deceptively light style, bringing not only his years of experience but his special wit, wisdom, and skill as an illustrator. Anyone interested in the process of psychotherapy—from beginning students to experienced practitioners, and even those in therapy themselves—will gain a new understanding and new insights, enjoying many a chuckle along the way. Harry Wilmer's Practical Jung puts you on the couch for greater perception, occasional laughter, and in-depth self-study. - Liz Carpenter, Former White House Executive Assistant and First Lady's Staff Director and Press Secretary; Wilmer has outdone himself—which is not easy. There is no taint of cultism in this unique book. Best of all he demonstrates the value of subjectivity. What he shines through—not just what he knows, though he is very scholarly. His drawings, as of yore, are out of this world—sometimes literally. I wouldn't have thought any new books about Jung could be written, but he has hit the bullseye. The Nuts and Bolts are something Henry Ford would be proud of, and his [Rules of] Thumb work is not to be sneezed at. Wilmer lets Jung speak for himself, and Wilmer speaks for himself, including Jung's effect on him. - Joseph B. Wheelwright, M.D., Former President, International Association for Analytical Psychology, Professor Emeritus, University of California, San Francisco I am deeply impressed by Wilmer's enormous creativity It is certainly impressive, on the one hand, how he manages to make Jung easy and, on the other, how genuinely Jungian...
