Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.From the FOREWORD IT is our hope that this report be considered in the nature of a preliminary study in the anthropometry of the feeble-minded. We have developed the treatment of the data from the point of view of mental tests, as an aid to diagnosis rather than as a contribution to anthropometry proper. Our primary aim is to establish a definite objective means of interpreting the measurements employed, measurements which are taken in nearly all laboratories and clinics but interpreted in few. We particularly urge that those who apply this method of interpretation consider the individual measurements not so much by themselves as in their relation to each other in the anthropometric curve, and that for individual cases due regard be paid to special conditions affecting each subject. These are, especially, physical deformities, pathological conditions, personal history (including nationality, parentage, previous health and nutrition, physiological status, physical and social environment, et altera ), examinational conditions (such as time of day, season, weather), and other internal and external factors, like incentive, emulation, or their negatives. Data regarding these...
