If lime wasn t already in this soil, somebody put it in before this scene happened. There isn t anything in the soil shown in this picture but what can be put in any soil. The main difference between these two fields is that the one on the right, with its rank, rich clover and soil full of roots has lime in the soil, while the one on the left with its cold, bare, lifeless clay IS sca1ce of lime It s lime that made that clover grow. Is the difference worth liming for? A soil naturally filled with lime is a great blessing but remember, we can put lime in any soil and make a blessing of it.
